

Dr. Harvansh Singh Judge Institute of
Dental Sciences, Chandigarh
And
Indian Association of Conservative
Dentistry and Endodontics

presents IACDE's First

FACULTY DEVELOPMENT PROGRAMME

**MAGNIFICATION IN
CONSERVATIVE DENTISTRY AND ENDODONTICS**

17th -18th April 2023

**DR. H S Judge Institute of Dental Sciences, Sector 25,
Panjab University Chandigarh**

CHIEF PATRONS

Dr. Renu Vig
VICE CHANCELOR
Panjab University

Dr. Dibyendu Mazumdar
PRESIDENT,
Dental Council of India

ORGANISING TEAM

Dr. Jagat Bhushan
IACDE PRESIDENT

Dr. Prahlad Saraf
IACDE SECRETARY

Dr. Kanwalpreet Bhullar
EVENT
COORDINATOR

Dr. Navjot Mann
EVENT
COORDINATOR

Dr. Kitty Sidhu
Organizing Secretary

Dr. Rajesh Joshi
Jt. Organizing Secretary

Dr. Vivek Kapoor
Convenor

Dr. Ruchi Singla
Scientific Committee

Dr. Amrita Rawla
Scientific Committee

- Dr. Amandeep Singh Uppal
Registration

Dr. Manjot Kaur
Registration

-Dr. Swaty Jhamb
Hospitality

Dr. Amandeep Kaur
Hospitality

This two day event aims to enhance the skills of the trainees by making them comfortable with the usage of the hour of the need – the microscope – in both Restorative Dentistry and Endodontics

Restricted to 20 participants only

DAY 1: 17th April 2023

9.00 AM onwards

**Restorative and Esthetic
Dentistry – U Me and
Composite**

Dr R S Mohan Kumar :

**Lecture followed by
Hands on after lunch**

DAY 2: 18th April 2023

9.00 AM onwards

**Endodontics –Non surgical
Retreatment**

Dr Jayshree Hegde Anil :

**Lecture followed by
Hands on after lunch.**

REGISTRATION LINK

<https://forms.gle/uFfNnwZ2RU6DDEzU6>

REGISTRATION AMOUNT: Rs. 4000/

**Each participant will be working on an individual
microscope and registration**

Includes

Material worth Rs. 4000/ & Tea and Lunch

**MODE OF PAYMENT:
UPI/PAYTM/GOOGLE
PAY/PHONEPAY**

**Tripat jot Kaur 7009878959 @upi,
Ishvjot Kaur 9888611446,
iksaini.9729-1@okaxis
Srishti Rathore
8174999216@paytm**

**FOR ANY QUERIES
CONTACT**

**Dr. Vivek Kapoor: 9464837200
Dr. Ruchi Singla: 9915772837
Dr. Aman Singh Uppal: 9780026263
Dr. Swaty Jhamb: 9915581178**

Meet the Experts

Dr. R.S Mohan Kumar completed his Bachelor of Dental Surgery from Saveetha Dental College and Hospital . He pursued his masters degree in the field of Conservative Dentistry and Endodontics from the same institution. He completed his NOBLE FELLOWSHIP programme in the year 2009 and has been practising Implantology from the year 2010. Dr Mohan completed his Diploma in Laser Dentistry and has successfully incorporated hard tissue laser in his private practise from 2011.

He is currently the Vice President of IACDE, Diplomate & Board member of IBMRE and also the director for MFMA along with Saveetha Dental College

Born and did her schooling in Manipal , she moved to Bangalore to join Bachelor of Dental Surgery at Government Dental College and Research center, and continued to pursue her MDS in Conservative Dentistry & Endodontics in 1994. In 2018, she was selected as one of the 5 Board members to start fellowship in Indian Board of Micro Restorative and Endodontics by Indian association of Conservative Dentistry and Endodontics. She is a member of Indian association of Conservative Dentistry & Endodontics, American Academy of Cosmetic Dentistry, Academy of Cosmetic Dentistry India, ADAI and Indian academy of Aesthetic & Cosmetic Dentist.

Day 1 – 17 April 2023

0900 Hrs Onwards

U ME and COMPOSITES

Dr R S Mohan Kumar

“Tell me and I Forget , Teach me & I Remember, Involve me & I Learn” Restorative dentistry has steadily evolved, progressing from mechanical retention to advanced adhesion. This transition was made possible by immense scientific research in the field of adhesive materials and bonding techniques. Collectively, the science, principles and techniques of advanced adhesive dentistry are known as biomimetic dentistry.

The biomimetic approach focuses on the simple philosophy of maximum preservation and minimal invasion to achieve predictable restorative success. It is important to understand the natural anatomy of the tooth and its contours to conveniently and effectively create exemplary restoration.

The ultimate objective of this workshop is to give knowledge and practical training to the participants and detailed insight on class IV build ups leading on to veneers using layering technique of composites with enhanced internal characterization using dentin and enamel shades with judicious use of various stains and tints to give a highly esthetic and bio-mimetic restorations

The participants are required to bring a micro motor and contra-angle handpiece. Tooth models, composites tints and other consumables including the finishing instruments/ points will be provided by SHOFU for usage during the hands-on.

Day 2 – 18 April 2023
0900 Hrs Onwards
**NON SURGICAL ENDODONTIC
RETREATMENT**
Dr. Jayshree Hegde Anil

Primary goal of root canal treatment is to eliminate microbes in the canal and help the surrounding tissue to regenerate.

The success rate of root canal treatment has increased over a period of time and is currently greater than 96%. However, failure to eliminate microbes due to missed canals, improper disinfection or iatrogenic errors has led to failed root canal treatment requiring re-treatment.

The goal of re-treatment will be to eliminate microbes and to ensure patency of the canal. Failed root canals increase the complexity of treatment and it is important to tread the canal carefully to achieve this goal.

Magnification using dental operating microscope is an irreplaceable tool in re-treatment. This lecture and hands-on will provide tips for successful non-surgical retreatment using microscope.

- *Magnifying success of non surgical re-treatment of failed root canal treatment*
- *Golden rules in non surgical re-treatment under magnification*
- *Pearls of wisdom for non surgical re-treatment under magnification*

Participants should bring Extracted tooth obturated with gutta percha and sealer of their choice. Access cavity should not be filled The tooth can be mounted with plaster block on the coronal and middle third. The apex should be covered with wax. Plaster should not cover the wax. Please bring H files- Size 15 and 20 (25mm)
